

University of Ruhuna – Sri Lanka
BSc. in Financial Mathematics and Industrial Statistics
MSF 4126: Research Project
Level IV – Semester I

Research Projects Timeline (Tentative)

Table 1: Tentative Schedule

Date	Activity
03/11/2025	Research Proposal Submission
12/11/2025	Feedback for the Research Proposals
17/11/2025	Research Proposal Re-submission
28/11/2025	Research Proposal Presentations
31/12/2025	Research Progress Presentations (Interim progress)
One month after Level IV Semester I Final Examinations	Report Submission
One week after Report Submission	Research Project Defense

Table 2: Limits of marks for the evaluation of the research project

Component	Marks
Defend the Project Proposal	20%
Interim progress	20%
Project Report	30%
Final Presentation	30%
Total	100%

Credit Hours: 06 (Compulsory)

Students are expected to put appropriate time towards their research projects. According to the credit hour definitions, in case of research, including time allocated for literature survey, one credit is considered equivalent to a minimum of 100 notional hours (SLQF 2016). Therefore, please manage and use your time wisely.

Learning Outcomes

At the end of this research project you must be able to:

- Use the theoretical knowledge learned in classes in real world applications.
- Use computing knowledge in applications.
- Make a report.
- Present the results.

Meetings with supervisor/s:

Students are expected to meet with their supervisors on a regular basis. They are expected to take the initiative to this meeting process. Further the students are responsible for discuss and inform their progress or findings to supervisor/s.

Deadlines for submission of research report:

The **hardcopy of the research report** must be submitted to the department office by **4.00 PM, one month after Level IV Semester I examinations**. Work submitted after this deadline will not be accepted, and the **soft copy** must also be **uploaded to the LMS by 4.00 PM on the same day**.

Supervisors cannot grant extensions. Extensions require the most extraordinary circumstances (e.g., lengthy hospitalization) and require the written evidence, normally well in advance. Poor time management (e.g., failure to manage a heavy workload near the due date) is an insufficient reason for an extension. Ultimately, the student is responsible for meeting this deadline.

The research report should be compromised with the below chapters.

1. Introduction
2. Literature review
3. Methods
4. Results
5. Discussion and conclusions with recommendations.

Attendance at presentations:

Presentation schedules will be posted at least one week before the due date. Students must attend their assigned presentation session and remain for the full session. No extensions for the presentation due dates.

The final presentations will be conducted **one week after submitting the report**.

Plagiarism:

Plagiarism is not allowed. Please refer to the University of Ruhuna Library website (https://www.lib.ruh.ac.lk/?page_id=1246) for details on plagiarism checking.

Evaluation Criteria:

The final year research project shall be evaluated on the basis of proposal presentation, interim progress report, and final report/ presentation. Limits of the marks for each component are given in Table 2. The results of the research project shall be finalized after completion of all the components. **Final presentations are compulsory in order to obtain “C” pass.**

The candidate can obtain “C” pass without facing for the interim progress review presentation. However, she/ he will lose 20% marks.

If not face at least one mentioned in the Table 2, other than interim progress presentation, she/he has to do them with immediate junior batch as a repeat student without getting prior approval or not submitting acceptable reason to the department.
